

2015 EU VAT changes - contact points provided by Member States

Disclaimer:

Member States have designated contact points with a view to the 2015 changes. These points are set up only to facilitate the contact with national administrations on matters relating to the 2015 changes. Such contact will not automatically bring a solution for potential cases of double taxation.

The designated contact points should only be used for that purpose and other VAT questions will be disregarded by Member States.
